

FREIGHTSNAP 360
Snap. Document. Share.

PROTECT YOUR FREIGHT, ONE SNAP AT A TIME

Effective documentation is critical to the success of any shipping operation. FreightSnap 360 is designed to keep you one step ahead, providing an end-to-end solution for capturing and securing every vital detail of your shipment's journey.

From the moment you snap a photo, FreightSnap ensures that your freight's condition is unquestionably documented, mitigating risks and shielding you from unjust claims. To further enhance data security and accessibility, shipments are automatically saved on the FreightSnap Cloud, hosted by Amazon Web Services.

HOW IT WORKS

Step 1: Download the FreightSnap 360 mobile app

Download the "FreightSnap" App from the App Store or Google Play and login to the App using your FreightSnap credentials.

Step 2: Snap Images of Your Freight

Open the app and use the simple camera interface to take unlimited high-resolution images of your shipment.

Step 3: Upload Images to the Cloud

With just a tap, securely upload your shipment images to the FreightSnap Cloud, where they will be stored and easily accessible.

Step 4: Access Every Scan from the FreightSnap Dashboard

Log in to your FreightSnap Dashboard to view and manage all of your captured shipment details, and share within your supply chain.

KEY FEATURES

- Effortless Image Capture
- Cloud Storage
- Freight Dashboard
- Dispute Protection

COMPATIBILITY

- Software: Android 9+, iOS 12+
- Devices: Urovo, Honeywell, Symbol, Cypher Lab, Zebra, Motorola, and many more.

INTEGRATION

Easy Integration With FreightSnap Products

FreightSnap 360 is not just a standalone solution; it is part of a larger ecosystem designed to streamline your shipping operations. Easily integrate the app with other FreightSnap products for a cohesive, end-to-end shipping and documentation experience.

Compatible Solutions:

- FS 5000 Pallet Dimensioner
- FS Parcel Dimensioner
- FS Image Station

FREIGHTSNAP DASHBOARD

Easily navigate your documentation

The FreightSnap Dashboard is your centralized hub for mastering shipping operations. Designed for ease of use, it offers:

Intuitive Navigation: Effortlessly browse shipments, track activities, and monitor status.

Review at a Glance: Use robust search and preview options to instantly access and review documentation.

Easy Sharing: One-click options to share data while controlling access permissions.
